
What is NAR RPR Commercial? ■ ■ ■

Realtors Property Resource™ (RPR) Commercial, NAR's exclusive online real estate library that provides REALTORS® with data on every property/parcel in the United States. RPR Commercial aggregates tax assessment and public records information, stand alone mortgages and liens, foreclosure data, demographics and census information, ESRI Tapestry data, along with licensed data from Commercial Information Exchanges (CIEs) and MLSs to create search and report features for REALTORS®.

What does RPR Commercial bring to ICBR? ■ ■ ■

ICBR has elected to partner ICRESX with RPR Commercial, providing subscribers an additional member benefit with access to comprehensive market data. All REALTOR® members of ICBR may log in to RPR Commercial to access public records, demographic and psychographic information, location analysis tools and customizable reporting. However, ICRESX active listing data will only be available in RPR to ICRESX Full Access subscribers.

Institute Affiliate (IA) members will not have access to RPR per NAR guidelines despite having a NRDS#. If an IA member wishes to access RPR they must contact ICBR to change their membership type to REALTOR®, which will involve paying REALTOR® dues.

How do I register for RPR Commercial? ■ ■ ■

ICRESX subscribers can register now for an RPR Commercial account. You will need your NRDS# and Agent ID to register. You can access your NRDS# online or contact the NRDS Help Desk at 800-874-6500. First time users must log into ICRESX and go to the RPR tab under Tools. This will generate an Agent ID that must be entered when registering with RPR. Once you complete this first time user registration, you will be able to access RPR directly at www.narrpr.com/commercial, as well as through www.ICRESX.net.

Basic Access subscribers will receive an "invalid" message upon entering their Agent ID into RPR. Please continue as this is just an indicator you will not be able to view ICRESX active listing data based upon your subscription type. Per NAR guidelines only paying subscribers of the CIE have access to active listings in RPR. Please contact the ICRESX Administrator with any further questions or to upgrade your ICRESX subscription to Full Access.

How is RPR Commercial different than CommercialSearch? ■ ■ ■

RPR Commercial is NAR's technology arm of Second Century Initiatives. The resource is owned by REALTORS®, as a portion of annual membership dues is allocated to RPR. RPR Commercial is not a consumer-facing product, and is only accessible by REALTORS®.

CommercialSearch, owned by Xceligent, is a part of the NAR REALTOR Benefits® Program and the exclusive provider of commercial real estate information services. In 2012, Xceligent acquired eProperty Data (owner of CommercialSource) from Second Century Ventures.

Where can I get more information on RPR? ■ ■ ■

ICBR members can learn more about RPR Commercial and view step-by-step guides and tutorials online at blog.narrpr.com, or by logging on with their NRDS number at www.narrpr.com. Need your NRDS#? Look it up online or call 800-874-6500.
